9/25: Individual School Pictures, K - 7: Students may be out of uniform

9/25: Cross Country Meet

9/27: Curriculum Night, Grades K - 4, 6:30pm

There are still openings available in both the Dodgeball and Supersports enrichment programs. Please contact Mrs. Johnson by Tuesday morning if you would like to take advantage of one of these great programs!

Forms from O'Connor Studios will be sent home this week. Individual school pictures will be taken on Monday, September 25th. Students may be out of uniform for picture day.

Except for a brief shower or two on Friday night, the 2017 Family Festival was blessed with sunny skies and summer temperatures, prompting people to come out in droves and participate in the festivities.

Once again our chairpersons, Chris and Colleen

Clifford, and their Family Festival Team organized a fun and safe event that was enjoyed by people of all ages. We are deeply grateful to all those members of our school and parish community who volunteered their time and talent.

Without your support this family-oriented, community celebration would not be possible. We will let these photos tell the story of this wonderful weekend experience. Thanks to

Stacey Hughes, you can click [here](#) to view a collection of photos on zenfolio from the Festival.

Congratulations to the Braman Family (Jackson, Grade 4 and Lily, Program C)! They are the winners of the Grand Raffle \$15,000 prize!

Please join us for Curriculum night on Wednesday evening for those parents who have students in grades 5 through 7. You will have a chance to meet the faculty and learn more about the curriculum, expectations, and experiences unique to each grade level. We will gather in the Church Hall at 6:30 for a brief presentation on cyber safety and bullying/cyber bullying prevention from Eileen Kneeland of the Worcester District Attorney's Office and remarks from Mrs. MacDonough and the SMPA Leadership Team. Immediately following, you will have an opportunity to follow in the footsteps of your child/ren to "change classes" and pretend you are back in middle school!

Students in Grade 7 worked with M &M's and Cheerios on Friday during Math class. Rotating through three different stations, the students worked collaboratively to solve problems involving the measures of central tendency and data collection and analysis.
